

The SG1100 & 2100 Guitar Amps

SG2100 with four 2 x 12" cabs - an awesome stereo sound!

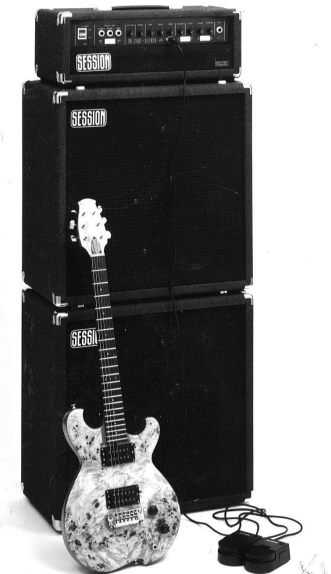

SG2100 250W Stereo Head

The SG2100 had the Sessionette preamp section driving two 125 watt MosFet power amps and had a 'Stereo Wide' facility which made the amp sound enormous when a stereo effect was plugged into the loop.

SG2100 250W Stereo Combo
